- content upload, API Instigation, create design, concept making
- create API using express, CRUD Operation, REST API and team lead ,and trained juniors

Stackkaroo.com

Jun 2023 – August 2023

MERN Stack Developer (intern)

- NEXT JS website build, bug fixing, react layout design using convert figma to NEXT JS,
- content upload, API Instigation, create design, concept making
- create API using express, CRUD Operation, REST API

ACHIVMENT:

- ❖ Core contributor to the **Guinness World Record-winning** Andhra Mahila Utsav Campaign with Sabhyasha Retail Tech, enabling 2.43 lakh+ orders worth ₹3.15 Cr in days and empowering 9,000+ SHG women. [View CEO LinkedIn Post](#)

PROJECT:

Sabhyasha Buyer Web App

[Live Website](#)

Tech Stack: React, React Router, react-helmet, Swiper JS, Tailwind CSS, Daisy Ui, Redux Toolkit
Node JS, Express JS, JWT Token, Mongoose, GCP

A high-traffic, production-grade e-commerce platform developed during the Guinness World Record-winning *Andhra Mahila Utsav Campaign*.

Main Features:

- ❖ Secure **JWT-based authentication**, protected routes, and session handling
- ❖ Advanced **product filtering, sorting, and search** across thousands of SKUs
- ❖ **Role-based dashboards** with dynamic data views for customers and admins
- ❖ Modular Express backend with clean API structure and MongoDB for large dataset handling
- ❖ Fully responsive UI with modern design using Tailwind CSS and shadcn/ui
- ❖ **Cloud deployment** and an **analytics-ready data layer** to user, orders, and payments

Achievement:

- ❖ 🚀 built the initial version of the app **in just 4 nights**, with feature expansions completed over 2 weeks.
- ❖ 🏆 Contributed to **2.43+ lakh orders** worth ₹3.15 Cr, empowering **9,000+ SHG women sellers**.
- ❖ 📈 Handled **90k+ peak orders in 9 days** with full-stack performance optimization and cloud deployment.
- ❖ 📊 Drove **12M+ product impressions**, setting a benchmark in rural digital commerce.

"Impact-driven solution delivered under real-world scale and pressure."

Artisans Wizard – Sabhyasha Seller App

[Live Website](#)

Frontend Tech Stack: Next.js, Redux Toolkit, RTK Query, ShadCN UI, Tailwind CSS

A multi-role, production-grade seller management platform developed for Sabhyasha's ONDC-based rural e-commerce ecosystem.

Main Features:

- ❖ **Role-Based Dashboard:** Super Admin, Organization Admin, Executive, and Seller roles with granular permissions.
- ❖ **Seller Features:** Account creation, profile management, product & variant management, order tracking, and report generation.
- ❖ **Admin Tools:** View and filter all sellers, executives, orders, and products; create organizations and assign executives.
- ❖ **Executive Workflow:** Executives can onboard sellers, manage products, and oversee order processing.
- ❖ **Optimized API Handling:** Integrated RTK Query for efficient state management and data fetching.
- ❖ **Modern, Responsive UI:** Pixel-perfect, accessible design using ShadCN UI and Tailwind CSS.

Near Delight – Food Seller Management Platform

[Live Website](#)

Frontend Tech Stack: Next.js, Redux Toolkit, RTK Query, ShadCN UI, Tailwind CSS

A **production-grade food seller management web application** that enables restaurant owners to manage their digital storefront, menus, and orders through a modern, scalable interface.

Main Features:

- ❖ **Seller Dashboard:** Manage restaurant profile, operational status, and business details.
- ❖ **Menu Management:** Create, update, and organize food items, categories, pricing, and availability.
- ❖ **Order Management:** View orders, track status, and manage order history.
- ❖ **State Management:** Efficient API handling using Redux Toolkit and RTK Query.
- ❖ **Secure Access:** JWT-based authentication with protected routes (API-integrated).
- ❖ **Modern UI:** Responsive, accessible design using ShadCN UI and Tailwind CSS.
